

## No Virus Mann

This is a template - it may help you unmask recent mass insanity and current 'vaccine' experiments.

The Isle of Man (Mann) is a country of 84,000 people, a village with a parliament - the oldest continuous parliament on earth. It is easy to find out who is doing what to whom, and where few truths can hide. Taking just four decades to bring paedophiles to justice, we have renewed hope to expose the covid con...

But hang on to your hat - what, no viruses? No, not when we actually pause and look properly. No. As no true 'virus' in history has ever been found in bodily fluids. 'Viruses' are only found after some monkey business, grown as all 'viruses' are, on monkey kidney cells. Then starved of nutrients and poisoned with (toxic to kidney cell)... antibiotics, plus live calf serum. All 'viruses' are only ever grown in a 'test' tube.

Now, 99% of people reading this will say, "I never looked" (so I never knew?). A great unlearning may start if you visit: <https://virology.com/> by open minded researcher Mike Stone who nails the 'virology' reality, or the lack of it. He covers fake history of polio and smallpox, and the noncontagious: 'Spanish flu'.

Meanwhile, Christine Massey has studiously collated 188 health institution Freedom of Information (FoI) replies, but all are unable to evidence a real isolated, purified, 'SARS-CoV-2' virus; a 'virus' said to cause 'covid'. One FoI reply, from the Isle of Man government to Steven-William: Gardner on 18<sup>th</sup> February 2021 confirmed they held no evidence of such a 'virus'. All 188 health institutions have also been unable to provide a real world, from patient fluids, example of pure: 'HIV', 'HPV', 'Ebola', 'SARS1', 'measles', 'rabies' - or any 'virus'. No, an 'assembled' fake 'SARS genome' via MegaHit or BLAST software doesn't count either. In which case, no (toxic) jabs, nor any harmful masks, are needed - false at the beginning, false at the end.

There are no new 'symptom specific' diseases - 'flu' was renamed and sold to us by complicit Manx media.

Please watch this 'no viruses' 18 minute video by Dr Andrew Kaufman detailing how 'viruses' are created, speaking with Courtenay Heading in May 2021: <https://www.bitchute.com/video/DWqulaZuLuzw/>

Infamous PCR 'tests' have never been certified nor approved as a 'test' - as the CDC didn't have a: 'sample'. In short PCR is a guess, as similar is not identical. PCR is a lab based amplification tool (not a test) but one which to quote PCR inventor Dr Kary Mullis: "can find anything in anything". Easily so, when using the FoI confirmed 45 'cycles' as ramped up on the Isle of Man ... a dirty covid 'test' based on dirty great big lies.

Dr Stefan Lanka has recently completed 'virus' control experiments showing that using yeast you can find any known 'virus'. Such control experiments have never previously been done, with much of the 'virus' fakery originating between 1954 and 1957. Even water can 'test' PCR 'positive' - as it's all: covid house of cards, 'science'. Dr Lanka has exposed the lie that 'HIV' ever existed, nor of course could 'HIV' cause AIDS - his view of over three decades. In 2016 Dr Lanka won a German Supreme court case over false 'measles'. 'Measles' simply being a growth spurt, a common age cleanse, an: "outfection" - to quote Dr Robert Young.

Dr Tom Cowan wrote The Contagion Myth, a book exposing other actual, location 'dis-ease', causes. His many videos expose location specific deaths, such as Chernobyl and Hiroshima and 'scurvy' ships - but no 'viruses'. Other 'contagions' were due to EMF and radio wave roll outs - including Wuhan in late 2019, and hot spot ventilator death\$ billed as 'covid' in 2020. In many cases, 90% of 'covid' people falsely treated on ventilator\$, died. Before too long, many will know of midazolam and remdesivir 'covid' badged murders.

Vaccine producer Pfizer had sought to hide 55,000 pages of covid jab trial data for 75 years but, truth be told, it took an Aaron Siri (Lawyer) initiated US Court case to order them to release all data, now. Trial data confirmed over 1,000 deaths and lists 1291 adverse effects, including: deaths, rapid cancers, blood disorders, spontaneous abortions, strokes, clots and heart attacks. Medical trials without true placebo too.

Covid jabs include toxic bodies such as graphene, unseen previously in blood analysis. Dr's Sam and Mark Bailey highlight this, with Dr Sam Bailey also writing Virus Mania. Blood analysis videos by Kiwi Dr Robin Wakeling are on Bitchute, and by Dr Ricardo Delgado of La Quinta Columna. There was no increase in 2020 world average 'pandemic' deaths, but in Q1 of 2021, post jab, major mortality increases. The 'covid product', to quote a Davos speaker, created many 'covid' billionaires - accomplices in behind-the-scenes vaccine mandates for the only 'no liability' product (since 1985) on the planet. Please let that fully sink in.

All wellness models know that any 'dis-ease' starts on the end of a fork - also needing toxic elimination to determine how long and how well we live, doctor free. An era of clean natural botanicals is fast returning.

With a willingness to unlearn, we can discover our terrain reality v the fake germ theory of history - of the enlightened Antoine Bechamp 'versus' that animal torturer, Louis Pasteur. Louis injected huge amounts of toxins into dog brains passing this off as a 'rabies virus', but he never found a disease causing 'viral' agent.

Those of us who were misguided enough to vaccinate our pets (me included) may steadily awaken, that there are no 'viruses'. Steadily, those animal cancers make far more sense, they help drive Vet income via vaccines - based on blind and deaf, cult 'science'. My (former) Manx Vet was unable to name any vaccine ingredients, nor obviously knew anything of the total 'rabies' fraud. Whether man or animal, it's monkey business with the Astra Zeneca 'covid' jab ingredients list confirming: 'contains chimpanzee adenovirus'.

Many in the vaccine aware movement (those increasingly researching actual vaccine contents) have been reluctant to grasp the 'no virus' truth, despite all the evidence. So, it is surprising that High Wire talk show host Del Bigtree, lawyer Reiner Fuellmich, lawyer Robert F Kennedy Jr., media presenter Brian Gerrish of UK Column, Irish virologist Dr Dolores Cahill, and US based Dr Sherri Tenpenny don't fully speak out now. (In December 2018, I paid Sherri just shy of \$6,000 as an on Island speaker on HPV vaccine harms). Sherri Tenpenny and Dolores Cahill were on Island for Tynwald Day 2019 to see my first arrest. Followed by another arrest on Tynwald Day 2020 - again while I wore an 'HPV Vaccine Deaths and Harms' yellow vest.

Long term Manx GP Dr Alex Allinson has written that he has 'no wish to enter into a public debate' with me, while his GP colleague Dr Helen Freer wrote 'I will be auto-forwarding your emails to my junk e-mail folder'. However, if Dr Mengele had been alive today, I am sure I would have received similar emails too.

It would be unjust if you were to send this note to police woman PC Emily Perkins, or Chief Constable Gary Roberts, or Tynwald Clerk Dr Jonathan King, as they have all requested I do not contact them again. Please do not send this note to Detective Inspector Mark Newey of the Manx Constabulary who is charged with investigating 20 'covid' deaths at Abbotswood nursing home as he too asked that I cease any contact.

Finally, blind faith errors occurred in the recent Rosalind Ranson v DHSC tribunal with both sides making false 'covid' and 'virus' claims. In the Ranson case my concerns were supplied in writing to QC Oliver Segal, plus written communications to QC's: Stuart Gale and Edward Garnier. Mr Gale, is a former Ramsey Isle of Man resident while London based Lord Garnier is now charged with a thorough review of Isle of Man law.

### Next steps

Attend our 'Justice For Jabbed' events each Saturday in August 2022 in Ramsey and Douglas. These open to all events encourage a public voice to record: 1,012 Isle of Man people harmed to date, post 'covid' jab.

Ask an average Manx GP: to the nearest £10,000 how much extra did you get for your covid jab 'patients'?

Demand of your MHK: to honour the memory of 106 'covid' deceased people we require a decent public inquest (not a fobbed off 'enquiry') into all the real causes of 'covid' deaths claimed on our Isle of Man.

No Virus Mann should really be called : 'No Viruses Man, Woman, nor Animal' - if we all investigate. Then, the ensuing vaccine carnage of sick customers for life, of a cruel, profitable, medicine industry fades away.
